

The Colorado Department of Human Services
Office of Behavioral Health is sponsoring a workshop:

“Integration of Medical and Behavioral Health Services for Vulnerable Populations”

The workshop will focus on one integrated care model for gender non-conforming and transgender children, adolescents, and young adults and another integrated care model serving adolescents and young adults living with HIV or at-risk of acquiring HIV. The workshop will review literature on the effectiveness and explore the benefits and barriers to using integrated care models successfully.

Presenter Daniel H. Reirden, M.D., is an Attending Physician in the Adolescent Medicine and Infectious Disease Sections at The Children’s Hospital Colorado, and an Associate Professor of Pediatrics and Internal Medicine at the University of Colorado School of Medicine. Dr. Reirden is board certified in pediatrics, internal medicine, and adolescent medicine. He became the Medical Director of the Children’s Hospital Adolescent and Young Adult HIV program in 2007.
